

Adding Punctuation

Help the witch add the correct punctuation, including commas, periods and question marks, to her potion recipe.

First I have to add one rat tail a zombies finger and bat spit. I then mix up all the ingredients inside my cauldron and let them boil for about an hour. Meanwhile I will prepare the spell from my book After an hour I let my potion cool down. Once the potion is cool apply the spell. The spell is as follows:

“Do you want to fly
or do you wish not be seen
Then drink this potion,
and have a happy Halloween!”
